

WHAT IS SALARY PACKAGING?

Salary packaging can reduce the amount of tax you pay by paying for expenses using pre-tax income. By reducing the amount of tax you pay, salary packaging will leave you with more money to meet your personal and financial needs. On average, you could save nearly \$4,000* a year in income tax by salary packaging with Paradigm.

WHAT CAN I PACKAGE?

You can package up to \$16,050 on cap benefits. Essentially all of your everyday items can be salary packaged under the living expenses benefit, for example, grocery bills, utility bills, insurance payments even haircuts. Or you could choose to package your mortgage repayments or rent in the cap.

You can also package extra items like cars, meal entertainment and superannuation that don't count towards your cap.
